

## Initial Project Planning Template

|               |                                 |
|---------------|---------------------------------|
| Date          | 15 March 2026                   |
| Team ID       | xxxxxx                          |
| Project Name  | Credit Card Approval Prediction |
| Maximum Marks | 5 Marks                         |

| Sprint   | Functional Requirement (Epic) | User Story Number | User Story / Task                                                                                                       | Story Points | Priority | Sprint Start Date | Sprint End Date |
|----------|-------------------------------|-------------------|-------------------------------------------------------------------------------------------------------------------------|--------------|----------|-------------------|-----------------|
| Sprint-1 | Requirement Analysis          | USN-1             | As a developer, I want to collect and analyze the project requirements so that I can understand the project objectives. | 2            | High     | 15-07-2026        | 17-07-2026      |
| Sprint-1 | Dataset Collection            | USN-2             | As a developer, I want to collect the credit card approval dataset for model training.                                  | 2            | High     | 15-07-2026        | 18-07-2026      |
| Sprint-2 | Data Preprocessing            | USN-3             | As a developer, I want to clean and preprocess the dataset to improve model performance.                                | 3            | High     | 19-07-2026        | 22-07-2026      |
| Sprint-2 | Exploratory Data Analysis     | USN-4             | As a developer, I want to visualize and analyze the data to identify patterns.                                          | 2            | Medium   | 19-07-2026        | 22-07-2026      |
| Sprint-3 | Model Building                | USN-5             | As a developer, I want to train machine learning models to predict credit card approval.                                | 4            | High     | 23-07-2026        | 27-07-2026      |
| Sprint-3 | Model Evaluation              | USN-6             | As a developer, I want to evaluate the model and select the best-performing algorithm.                                  | 2            | High     | 23-07-2026        | 27-07-2026      |
| Sprint-4 | Flask Application             | USN-7             | As a user, I want to enter applicant details and receive an approval prediction through a web application.              | 3            | High     | 28-07-2026        | 31-07-2026      |
| Sprint-4 | Testing & Deployment          | USN-8             | As a developer, I want to test and deploy the application so users can access it reliably.                              | 2            | Medium   | 28-07-2026        | 31-07-2026      |
